

CCTV POLES - Standard Pole P1600/P1800

* Housing not included

DESCRIPTION

The P1600 is a heavy duty, 16', square steel pole designed to accept cameras and housings from a wide variety of manufacturers. It's constructed from 4" x 4" x .25" tubing, and comes complete with access panels on top and bottom. A 20" transformer base is available, raising the pole height to 18'.

FEATURES:

- Durable powder coat finish
- Raises camera 15 feet
- Heavy-gauge steel for maximum stability
- Supports up to 200 lbs
- Optional 20" aluminum transformer base includes NEMA box, terminal strip, 115 transformer and surge protection

ARCHITECTURAL/ENGINEERING SPECIFICATIONS

The P1600 shall be constructed of heavy-gauge steel with a powder coat finish. It shall be capable of a maximum load of 200 lbs. The dimensions shall be 16' H x 4" W x 4" D. Two access openings shall be included, one on the lower end and one on the upper end. The P1800 shall include a 20" transformer base. Its dimensions shall be 20" H x 12" W x 12" D. The base shall include a NEMA box with terminal strip, 115 transformer, and surge protection.
